

## BIKERS

Rear basket on a mountain bike  
is where he's riding dual,  
harnessed in and leaning hard,  
a cycle-biking fool.

Nose flattened out on straightaways,  
weight shifting on the curves,  
daredevil biking terrier,  
a Super Dog of nerves.

Other riders watch wide-eyed,  
bystanders stare agog  
in disbelief as he blurs by,  
two-wheeling biker dog.

His spirit is unfaltering——  
it powers us, for sure,  
'cause I can't keep from pedaling  
as though we're on "*The Tour*."
