

GEEHAW

He's working on the leash with me.
We're practicing commandment "Gee,"
enjoying, even as we learn
how it creates a smart right turn.

We're also practicing to "Haw,"
which is a corresponding law
that operates as we obey
to turn us round the other way.

Despite the modern day un-use
there's neither reason nor excuse
to be belittling these rules.
Well-used for years these ancient jewels
are valued as historical,
a fact that's categorical.
