

## NOSE FIRST

The world is full of facts and fakes,  
and we must face them every day.  
Prepare yourself for what it takes  
and let your dog show you the way.

Be certain, as life moves along,  
to put your trust where sniffing counts;  
a dog's nose knows when something's wrong.  
He'll tell you when to pause or pounce.

You'll see your share, while on this earth,  
to learn which way the fair wind blows.  
Here's my advice, for what it's worth:  
Don't ever doubt a good dog's nose.
