

THE CURE

Stomach sour? My advice:
Boil beef, cook up rice,
cut in half what he eats,
hold the kibble, cancel treats,
curtail scraps, clear his plate,
no rawhide chews to masticate,
no nylon gnaws, no bones to bite,
and no fried foods or baked delight.

Of course, he will resist;
insist upon this list.
Persist what you've begun
until the cure is done.
Resume the former food;
enjoy his gratitude.
