SCOTTISH TERRIERS

Annual Issue

HERE IS THE 1968 Scottish Terrier issue, and we do hope you will all enjoy it. There is quite a bit of breeder news and with all the other material and the pictures, we do think the issue rounds out into quite a nice one.

First of all a bit of news from the Scottish Terrier Club of America. At the Club's annual meeting, Dr. T. Allen Kirk, Jr. of Roanoke, Virginia was re-elected for his third term as the Club's President. Mr. Charles Stalter continued on as Vice President, and we have no news as yet as to who will take his place. Mr. Stalter's sudden and shocking death, of course will necessitate naming a new Vice President. Martha Melekov continues as Treasurer. Robert Marshall is the Recording Secretary and Anthony Stamm the Corresponding Secretary. Governors elected are Ralph Sloan, Robert Graham, Dorothy Morris and Richard Weaver. Charles Weber is delegate to the A. K. C.

The Club has two National Specialties planned to come this year. The one will be at Denver in April and will undoubtedly be

One of the breed's greatest winning Bitches of all times. She is proving to be as great as a producer, and ties with Ch. Young's Samantha and Van Isendal's Wee Bonnie for Leading Dam in 1967. Three of the current Champions on the list are her get.

By the time you read this, the fall show will be with Montgomery County.

Mr. Weaver heads a clinic for all breeders, exhibitors and owners of Scottish Terriers that will be held in August in St. Louis.

The Club wound up 1967 with the largest membership in its history, and that is indeed good news.

As is always the case, the Gaidoune Scotties figured prominently in the 1967 Scotty activities. Two of the Gaidounes have won more Groups than any Scotties in 1967.

Ch. Gaidoune Great One, by Ch. Gaidoune Great Bear, won six Groups and two Best in Shows. He represents six generations of Gaidoune breeding.

Ch. Gaidoune Bear Garden, by Ch. Gaidoune Smokey Bear out of a Great Bear daughter, owned by Joan M. Hanneberg, won two Best in Shows. These were in his first three showings as a special. He also was Best of Breed at a big Specialty—all of these in eight days. These wins from Specials were on top of three group Firsts which he took from the Classes.

So far this year the star of Gaidoune is Ch. Gaidoune Good Will by Ch. Gaidoune Grin and Bear It, who by the way is now the sire of ten champions, out of Ch. Gaidoune Gisele who has produced eight bear-

ing the title. Good Will topped the recent Michigan Specialty under Bob Marshall, also won the Group at Mad River in March. He has had several other wins with Group placings.

A newsy letter from Dorothy Morris, of Scots Delight Kennels at Churchton, Maryland tell us they have been campaigning, and very successfully, their Ch. Scots Delight Rough Rider. He was Best Opposite at the recent Parent Club Specialty in New York, the same win which he made at Montgomery County in the fall.

Dorothy writes he is a most remarkable showman, never lets down, even in the rain. At the Eastern last fall, during a pouring rain storm he still strutted his stuff.

Scots Delight should come through with plenty of Champions in 1968 as they have five different youngsters, all with points. Gaywyn Loyalist has nine, Scots Delight Corsair and Scots Delight Buccaneer are near the halfway mark. Scots

Delight Beau Catcher has ten points, and Jodaz Pandora is also pointed.

Loyalist's third son, Scots Delight Top Rascal, owned by the Harry Zipprichs of York, Pa., is now with Dorothy and you will be seeing him on the spring circuit.

We hear that Col. and Mrs. Kenneth Hunger, of Arlington, Va. have purchased a young son of Ch. Scots Delight Short Stop. This youngster won the six to nine Puppy Sweep at Montgomery County last fall. He is named Scots Delight Town Crier and you will be seeing him at coming shows.

We hear that Kirk Nor Kennels of Camp Spring, Maryland, well known breeders of Beddingtons have turned to Scotties and have a Rough Rider son named Kirk Nor Outrider which they will be showing shortly. Also to be shown is his brother, Kirk Nor Pony Express, owned by Anthony Cole of Virginia. Incidentally, these two are the first of the Rough Rider progeny that will be shown. They are out of a

daughter of Ch. Scots Delight Wild Oat.

One of the top winners in 1967 is Ch. Mar-De's Dark Felicia, owned by the E. P. Fitzwilliams of Hazelwood, Missouri. They sent in a picture but unfortunately it was a black and white made from a color shot and simply would not reproduce. You couldn't tell it was a Scottie.

Frankly, you do not get good results from color shots which must be used in making cuts. The process entails rephotographing the color shot, making a black and white out of it, and from it the necessary halftone, or cut, is made. The results are horrible, so please, in sending pictures that you hope to use either in your advertising or as news shots, be sure they are original

ANOTHER YEAR has turned a full cycle and we can examine the latest records on Scottish Terriers and from them learn something of what is happening in the breed. The year 1967 saw 78 champions finished, a drop of nine from the previous year. As usual, the Fashion Hint-Realisation lines were the top producers, furnishing 63 of the year's total. Also, as usual in the last decade the Albourne Barty-Reveller line was second, contributing 12 champions during the year. The group headed by England's Glenconnis Red Robin is not widespread in either England or America but just manages to furnish a few each year, three in 1967. From these figures it is apparent that all of our bloodlines are not in one basket as they seem to be in England at the present time, since we see that 39 different sires accounted for the 63 champions of the Fashion Hint line. Six different sires were responsible for the 12 in the Barty group, all of these extremely close to the Winning Trick- Troubadour

but as a group their more immediate origin was in Walsing Wizard and his son, Westpark Masterpiece. The group included the Masterpiece sons, Ch. Trevone Tartar, Eng. Ch. Westpark Rio Grande and Am. Ch. Reimill Radiator as well as his grandson, Eng. & Am. Ch. Wyrebury Wrangler and a great-grandson, Eng. & Am. Ch. Westpark Derriford Baffle. Tartar, Wrangler and Baffle had excellent show records and, although all were located in rather distant parts of the country, the South, the Northwest and California, they had equally good records as sires.

piece descendants to the line deriving from Wizard through the Walsing dogs, Watchtower and Was Loan, a line which resulted in the key dog Rosehall Enchanter and his sons, Champions Rosehall Edward and R. Torgylen Tam o' Shanter. Present English champions by Ch. Kennelgirth Viking (he has 19 to his credit thus far) derive from the Tam o' Shanter side through Glendoune Gauntlet and the Viewparks, Pilot and Vincent. The parallel line of brother Edward has a considerable part in Viking's success however since daughters of Ch. Bardene Bing appear to be a successful combination with him. This is the combination which produced the Dog of the Year in England, the almost invincible, Ch. Gosmore Eilburn Admiration.

In America the Rosehall Edward line has been around a long time without too spectacular a performance until the Bardene champions Boy Blue and Bingo were imported in the early 60's and soon caused a veritable population explosion in American champions. Both dogs were line bred and were eminently successful in the show ring and at stud. Together they have accounted for 65 champion descendants since their arrival. Last year Bingo topped off an illustrious show

foundation dogs. Troubadour sons, Ch. The Laird of Scots Guard, Ch. Rebel Invader and the grandson, Ch. Barbary Knowe Merrymaker are keeping this line alive. Over the past decade these Albourne lines have slowly declined while the more complicated Fashion Hint-Realisation line has held a steady course upward until the last four years when it appears to have levelled off at about 60 per year.

For a number of years — around the 1950's — attention focused on a group of dogs we dubbed the "International Set." They were all well-publicized English imports of the Fashion Hint — Realisation line

Rio Grande was not shown in this country but he sired 21 American champions. Unfortunately, he is now seldom seen on male lines of descent but is found principally on the distaff side of pedigrees. The others are still carrying on and although their production as a group is slowly decreasing they are still a force to be reckoned with. Wrangler has the most consistent record but Tartar bloodlines are still much in evidence in California as witness the important win by a Tartar granddaughter, Ch. Revran Reprise who bested 2,607 dogs at the Beverly Hills June show in California and was also best in show at the specialty show of the Sc. T. Club of So. California with 56 in competition. She has made an equally good start in 1968 by topping the Sc. T. Club of America's Specialty at New York and was best of breed at New York's Westminster event.

However, as we scan the latest records it is evident that the picture is shifting away from the Master-

career by capturing the double at New York when he went best in show at the New York Scottie specialty and following that was best in show, all breeds, at Westminster. Prior to these shows he had topped the Santa Barbara and Beverly Hills California shows of nearly 3,000 dogs each. So much for the Bardenes whose reign shows every sign of being a long one.

Probably the most amazing bloodline in this country comprises the group of dogs originating with Eng. Ch. Walsing Warrant and his

Current Scottie Champions

THERE are seventy-eight Champions on the current fiscal list and it covers a twelve months period and includes those Champions whose titles have been confirmed and published in the issues of the American Kennel Gazette from March 1967 through February 1968 inclusive. This is nine Champions less than last year's list, but we do call your attention to the fact that in months gone by, records were running quite far behind and as a result there are undoubtedly many Scottish Terriers which completed their titles within the fiscal year, but whose Championships were not confirmed in time to be published in the issues of the American Kennel Gazette mentioned.

Leading Sire

The leading sire on the list is a repeat of the 1967 record, and it is Ch. Bardene Boy Blue once again. This year he has seven Champions on the current list. Last year he

had eight. This is truly a terrific record.

In second place is the great Ch. Bardene Bingo with five Champions on the current list. Third place is a tie between two dogs, Ch. Scots Guard Troops The Colors and Ch. Gaidoune Grin and Bear It. Both produced four of the current Champions.

Those sires which produced three Champions each include Ch. Gai-

doune Great Bear, Ch. Barberry Knowe Blizzard and Ch. Barberry Knowe Merry-maker.

Quite a few sires produced two Champions each and they include Ch. The Laird of Scots Guard, Ch. Gilkey's Johnny Come Lately, Ch. Shieling's Tribute, Ch. Bardene Bobby Dazzler, Ch. Revran Synphony and Ch. Viewpark Red Hackle.

Every single sire on the list which produced more than one Champion, is also a Champion of record, and some of the Leading Sires are definitely among the breed's greatest Winners. It is good indeed for a breed when great winners turn out to be great producers.

Leading Dam

The title of Leading Dam is shared by three bitches, each of which produced three Champions. They include Ch. Young's Samantha, Van Intendal's Wee Bonnie and Ch. Carmichael's Fantare.

A goodly number of bitches produced two Champions on this list and they are Ch. Gadsicot Darlin', Katie, Carmichael's Margaret, Shieling's Divine, Ch. Charves Silver Tassie, Ch. Anstamm Ebony, Seagraves Heather Star, Ch. Revran Mazurka, Ch. Balachan Gambit, Ch. Firebrand's Mustard, Gaidoune Glazie and Ch. Gaidoune Gisele.

Leading Breeder

Helen Gaither is once again Leading Breeder with six of the current Champions to her credit. We are beginning to believe that being Leading Breeder is getting to be a habit with Helen. She topped last year's list and we believe this is the fifth consecutive year when she has either been Leading Breeder or tied with one other for that spot.

In second place on the breeders list are Mr. and Mrs. Chas. Stalter with five Champions to their credit.

Several breeders produced four Champions each, these being Allan Cartwright, Mildred and Robert Charves, Mr. and Mrs. Anthony Stamm and John P. Murphy.

Four breeders produced three Champions each and these include Elaine and Karl Young, Richard and Jane Van Intendal, Mrs. Richard Swatsley and Dr. and Mrs. T. Allen Kirk, Jr.

Robert Houde and John Sheehan were co-breeders of two Champions on the list.

ENGLAND'S DOGS of the Year awards published in the last week of December constitute an over-all picture of the top winning dogs of the show season just ended. The awards are based numerically on the best in show winners and the runners-up at all the championship shows of the year. Because of cancellation of the last show, Richmond, only 22 all-breed shows were held in 1967 but at these 15 different dogs and bitches were awarded top honors. To arrive at the final figures, six points are allotted for best in show at Crufts with four points for the runner-up. At all other all-breed Ch. events the top dog receives five points and the runner-up, three. On the basis of these calculations, the Scottish Terrier, Ch. Gosmore Eilburn Admaration, was far in the lead and a practically certain winner as early as September. He finished with a total of 33 points for he was six times best in show (W.E.L.K.S., Windsor, Paignton, Bournemouth, Belfast and the Birmingham Nat'l) and was reserve best at Cardiff. His nearest competitors were the Doberman, Ch. Isenberg of Tavey (Dog of the Year in 1965) and the Dalmation, Ch. Fanhill Faune, each annexing eleven points. Although specialty shows do not figure

in the final accounting. Admiration was also best in show at two of the season's three Scottish Terrier specialty shows. In all quite a fantastic record for a Scottie. Aside from the tremendous publicity gained by the breed after such a record it can also create detrimental side effects if the winning of one dog goes on indefinitely. One very obvious effect is that no other male appears in the list of six champions finished during the year. The reputation gained by such a dog discourages breeders who have good young males but do not care to risk almost certain defeat at the hands of the better known dog. As a result many youngsters are exported and potentially useful bloodlines are lost. From time to time the question is raised by breeders in general on the advisability of limiting the number of certificates that any one dog can win. He might then be given a special distinguishing title after reaching his limit and not allowed to compete further at shows against others of his sex. If his titles and bloodlines are worth anything he can then justify them at stud by producing as good or better than himself for he will assuredly attract most of the best bitches whether he is being shown or not.

Dyed in the wool showgoers exhibited varied reactions to the long vacation from dog shows of any sort. Some chafed at the delay, longing to be back in the show ring again, some, I regret to say, not seeming to give a thought to the farmers whose livestock and livelihood were facing complete destruction. Others took it philosophically and used the time for long needed chores around the kennel and home or were thankful not to be on the icy roads if they had some distance to drive and one, at least, Stanley Dangerfield, took the opportunity to visit the cat show at Olympia, billed as the world's record entry of pedigreed cats. In contrast to the color and activity of

a dog show he found it interesting but rather tame for there is little movement, no parading around and no rings to furnish a focal point. Each cat is lifted from its cage by the judge, assessed for merit and returned to its cage. Many dog fanciers protested the holding of a large cat show just a week after Richmond was cancelled but it was pointed out that the Ministry ad-

AFTER A WEEK in the hospital for a check-up following Westminster and a three-week illness at home, Charles C. Stalter died on March 19.

Mr. and Mrs. Stalter owned the successful Barbary Knowe Kennels of Woodcliff Lake, N.J., home of fine Scottish Terriers, Sealyham Terriers and Dachshunds. Their Ch. Carmichael's Fanfare (Mamie) will be remembered as winning Best in Show at Westminster in 1965, placing highest in ratings for show winning in both the breed and the terrier group for several years. This year their Dachshund, Ch. Crosswynd's Crackerjack, won first in the hound group at Westminster. Mr. Stalter has judged at this show, also in England and from Coast to Coast.

A graduate of the New York Military Academy and of Cornell University Law School, Mr. Stalter specialized in insurance law and was a noted Trial Lawyer. He was a member of the American and New Jersey Bar Associations, also of Bergen and Passaic. He was honored by being named Special Deputy Attorney General of New Jersey, and was a captain in the Air Force with combat action during World War I.

Mr. Stalter's sportsmanship and cheerfulness will be greatly missed by the sport of dogs. He was President of the Associated Terrier Clubs, also Vice-President of the Scottish Terrier Club of America. He was a Mason and a member of the Elks. Mr. Stalter is survived by his wife, Helen, and it is good to know that Barbary Knowe Kennels will be continued.

Our Cover

THE PICTURE ON our cover this month is a great young son of the famous Ch. Bardene Bingo, namely Ch. Carnation Casino. Casino finished his title early last year after a truly whirlwind campaign. No sooner had Bob Bartos returned from his Best in Show win at Westminster in 1967, than he brought out Casino. Before most people were even aware that Casino was being shown, he had completed his title. He accomplished it in just two week-ends. The first time shown he won the Group from Open, and finished with a Best in Show All Breeds at Yukima under William Ackland. He was not shown again until after his confirmation was received, then won the Washington State Scottish Terrier Specialty under Robert Graham.

His record in 1967, and he was shown only eight times, was one Best in Show All Breeds, one Best at a big specialty, three Group firsts, two seconds and a third. This is, indeed, nice going.

Casino, who just celebrated his third birthday this month in, as stated, by the great Ch. Bardene Bingo. His dam is Ch. Carnation Cynthia, winner of the World's Fair Specialty under Howard Sneath. She is a Baffle daughter, and her dam was a Champion, sired by Rio Grande. With this breeding behind him, it is not to be wondered at that Bob Bartos, Manager of Carnation Farm Kennels, feels that Casino will prove to be a great sire. You will be seeing some of his youngsters at the shows this year.

black and white, and don't expect a cut to look any better than the original picture. As a matter of fact, in making the average cut, some of the original sharpness and contrast is lost, so if you don't have much to start with, you will have even less in the reproduction which finally appears in the magazine.

Last month we mentioned something concerning the activities of Mrs. H. E. McComb, of Rutledge, Tenn., who has been specializing in Wheaten for many, many years. Of course she breeds other colors too, but her record so far as Wheaten

is concerned, is certainly an unusually spendid one. In her letter she mentioned being up most of the night assisting in whelping a litter of seven, and all seven were Wheaten, five red and two dark ones. They were by Ell Scotts Mountain Dhu and out of their Ell Scotts Sugar and Spice. We are glad to have a picture of five puppies out of Sugar's last litter for this very issue.

We are sure that Mrs. McComb holds a record for breeding Wheaten

champions, seven to date.

Pictured are three champions all finished by Mrs. Richard E. Swatsley of Victorville, Calif. in 1967. Data concerning them all appears under the photographs. Mrs. Swatsley, of course, is the owner and the breeder of the great winning bitch, Ch. Revran Reprise, Best of Breed at the recent New York Specialty, which was a repeat of her win last fall at Montgomery County. Reprise was also Best of Breed at the Garden this year. Mrs. Swatsley writes that she was naturally thrilled at the New York wins, but

did she hate the weather! She said that she was cold from the time she left home until she got to New York and all the time she was in New York. Well, actually the New York weather wasn't too bad for that town this year. While it was cold and windy of course, at least it was dry.

Mrs. Swatsley plans to continue showing "Prissy" a bit. This year she took the Breed at San Diego and at the three Arizona shows, with Group placings at San Diego and Mesa. Later in the year she talks of retiring Prissy since she is anxious to start showing a couple of Arabian fillies which she acquired last fall. They are only a year and a half old, too young to be broken for riding, but she is anxious to learn how to show them in halter classes. Well, if she has as much success with the fillies as she has had with Reprise, she will surely be doing alright.

A note from Mrs. Robert Graham tells us that Todhill took it pretty easy in 1967. They did finish Todhill's Rare Edition, sired by the great Ch. Special Edition. You can look forward to Todhill being busy in 1968 as they purchased a young dog from Archie MacLaren of Scotland, and of course plan to campaign him. We believe his name is Viewpark Dalblane Mardy Chestnut.

Our Ohio friend, Hilda Bigelow from Negley, has been having quite a time at recent shows. At Battle Creek, Ch. Bianart Bold Lad was Best of Breed, Reserve was her Gaidoune Gentry of Hill-Rays. The Bigelows also took First in the Puppy Class with Hill-Ray's Ambassador, one of their Bingo sired youngsters. Ch. Bianart Bold Lad is pictured.

Very close to the title is Gaidoune Gentry of Hill-Rays, which was Best of Breed from the classes at Hagerstown, Md. under Blanche Reeg and has thirteen points.

Ch. Hill-Rays Smoke Signal hasn't been shown since last September when he was Best of Breed at Trumbull County. He took a Group placement here.

At the recent Specialty held with Detroit, Hill-Rays had a number of Class winners.

A note from Shirley Justus of Corpus Christi, Texas brings news that they are very busy with Gais-toune Avenger, a Ch. Barberry Knowe Merry-maker son. He is

exactly one year old and already has eight points. He went from the Classes to Best of Breed at the recent New Orleans and Baton Rouge shows and was Best Opposite at Houston, Galveston and San Antonio this spring. He surely has been a busy little fellow and it shouldn't be long before he will be sporting the champion title.

Ch. Reanda Rocksand, now with Betty Malinka of Sandoone Kennels, came to the United States by special arrangement to be shown and used by Sandoone in a breeding program. He finished his American

title in six weeks with two five point majors, one at Washington, D. C. and the other at the Northern Ohio Specialty. He was also Best of Breed at the Greater Miami Scottish Terrier Club Specialty. So far he has won nine Best of Breeds with three Group placings. He has produced four litters for Betty, and she writes they look good, all have exceptional temperaments, good ear placements, excellent bone, nice tail sets and harsh coats.

Rocksand came over by special arrangements with Mrs. Wolfgang Fierlage of Osnabrueck, Germany. Mrs. Fierlage is a friend of Miss Bergit Zakchewski who was with Betty as a house guest last summer. She returned to England to help Mrs. Meyer of Reanda Kennels in an emergency, but expects to be back in this country for a year's stay in the very near future.

A late flash comes from Dorothy Morris bringing really sad news. When she returned from the Turbee Circuit in March she found her most beloved Ch. Scott's Delight Gidgit's Gadget unconscious on the floor of her bedroom. Every attempt was made to get her to a veterinarian as rapidly as possible, but she died in Dorothy's arms on the way to the hospital. She was five years old this past September, and Dorothy says, "Was our dearest friend". An autopsy revealed that she had died from a toxic condition due to a heart worm infestation which nobody had suspected. Due to this they had all the dogs in their kennel tested but found only one other with micro-filaria out of twenty-one dogs. This one is undergoing treatment at this time so that she will not be a carrier.

lis, who own the great Wheaton, Ch. Sharonlane Gold Medalion, write that while they have no sensational news at the moment, they do have some excellent youngsters only awaiting maturity for show careers. They were a little startled over the amount of attention Gold Medalion got from breeders who were anxious to produce some Wheatens.

The Kricks tell us it took them a long time, and very, very careful breeding to come up with Goldie. They never use him on a bitch of their own that does not show five generations of certain refined type which they feel tends to offset many faults which some Wheatens may possess.

grandson, Ch. Deephaven Red Seal. Considering that this line has been active continuously since 1942 it is remarkable that in 1967 it is still the second most important section of the Fashion Hint team. Over the years they have the highest total number of champions—182 from Red Seal, 216 if we include the progeny of the foundation dog, Warrant. The dogs who are presently accounting for most of the champions are Ch. Gilkey's Johnny Come Lately and the Todhill-Gaidoune "Bears" of various names and of course they in turn derive from Ch. Friendship Farm Diplomat, a great-

grandson of Red Seal.

The third very active line on the Fashion Hint front is comparatively recent but is making itself felt over the past few years. This group is the closest of all to the great Realisation for it originated with his son, Miss Penn Bull's Heather Herald and in only two generations produced Eng. Ch. Keanda Roger Rough. This dog, bred by Mrs. Meyer, was the winner of 25 r.e.'s and was best of breed at Crufts in 1959, 1960 and 1961. His success here depends largely on his son, Eng. & Am. Ch. Walsing Wild Winter of Barberry Knowe and his grandson, Shieling's Tribute.

As one leafs through the pedigrees of the 1967 champions the repetition of the names from the foregoing lines seems to catch the eye on nearly every page. There is also, to be sure, a sprinkling of names whose pedigrees are obscure hodgepodes of completely unrelated dogs and bitches, many of them difficult to trace to a known source. Most of these will not be heard from again and will have no influence on the breed except to clutter up the lists. But this only serves to emphasize that there are dominant

lines available which have the best chance to produce good typical and lasting Scottish Terriers. Those breeders who recognize the value of these producing lines and try to concentrate them within chosen lines and families have the best opportunity of improving the average excellence of their stock and even to go a step further and breed that chance first-class super dog which will catch the eye and stand out from the crowd wherever he goes. Such dogs are never too plentiful but when one comes along he is sure to fill the eye of the beholder and the heart of his breeder and so justify all the thought and work which has gone into his making.

dogs there was no decision to be made, the Kennel Club took the decisive stand and withdrew licenses for all types of dog shows.

ember the blow struck; one calf was ill, and the anxiety of weeks ended with the destruction of a long-established pedigree herd of Jerseys and over 100 sheep. This came on top of a year's sequence of accident, an operation and a long summer's illness, but with the courage of the British she is already looking forward to restocking and breeding again when it is safe to do so. In the face of such adversities and this was a relatively small number of destroyed animals—the

loss of a few dog shows seems a small sacrifice indeed.

Prior to Craff's there was much speculation as to what effect the foot-and-mouth epidemic might have on the entry at the biggest show of the year or if, in fact, the show might be held at all. Happily, the Committee was given the go-ahead signal although the ban was continued on all shows in the stricken areas. As for entries, all doubts were soon put at rest when they began pouring in and by closing date disclosed an increase over last year in both dogs and entries. The final total was 7,017 exhibits — an increase of 232 over last year.

Scotties, judged by Mr. W. Gill mustered 52 dogs for his inspection. His detailed report and observations will not arrive in time for this column but once again our thanks to Mrs. Yates for marked sheets from the catalogue showing all the class winners. Best of breed for his 21st c.c. was Mrs. Dallison's Ch. Gosmore Elburn Admarion. The reserve dog was Penn Bull's Kennelgarth Knight Errant, he by Ch. Kennelgarth Viking ex the Bingo daughter, Bardene Bingo Tessa. The winning bitch was Miss Miller's Brio Jezebel, his her first c.c. She was sired by Kennelgarth Confucius and her dam is Brio Withercraft. Confucius is a Ch. Gaywyn Matador son. The reserve bitch was Fraser's Aberseot Legal Lady, she by the Viking son, Gillis Macnab. Admarion went on to win the Terrier group on the first day but finished up only 3rd in the lineup at the end. He was beaten by the Dalmatian, Ch. Fanhill Faune, for best in show. She has been runner-up to Admarion twice during the last show season. We shall hear the reason when the detailed report arrives. She is a great showman, has a grand temperament and bubbles with vitality and is certainly up in the top class or she would not have been in such a high spot in the year's finals.

The next big show will be Manchester where Mrs. Punton of the Elburns is due to judge, her first Ch. show assignment.
